Weather Synopsis:

Northeast Region Sector Synopsis Issued by the Ministry Emergency Operations Centre At 7:30 EDT Wednesday May 14, 2025

Today: Cloudy conditions extending from south to north throughout the day will bring a few showers, amounts ranging from a trace to 5mm. There is a slight risk of thunderstorms in the northern sectors this afternoon and early this evening. Winds will be from the south at 10-20km/h gusting to 30-40km/h. Locally stronger gusts of 40-50km/h are expected in the E01 sector this afternoon. RH's will be 50-60% in the southern areas and 35-45% in the north. Temperatures will be in the low twenties in the southern areas, mid to upper 20's in the north.

Sector 01: Mainly cloudy with a chance of showers(trace-2mm). Winds southerly 15-30km/h, gusting to 40-50km/h. RH's of 50-60%. High 22°C. Low 13°C.

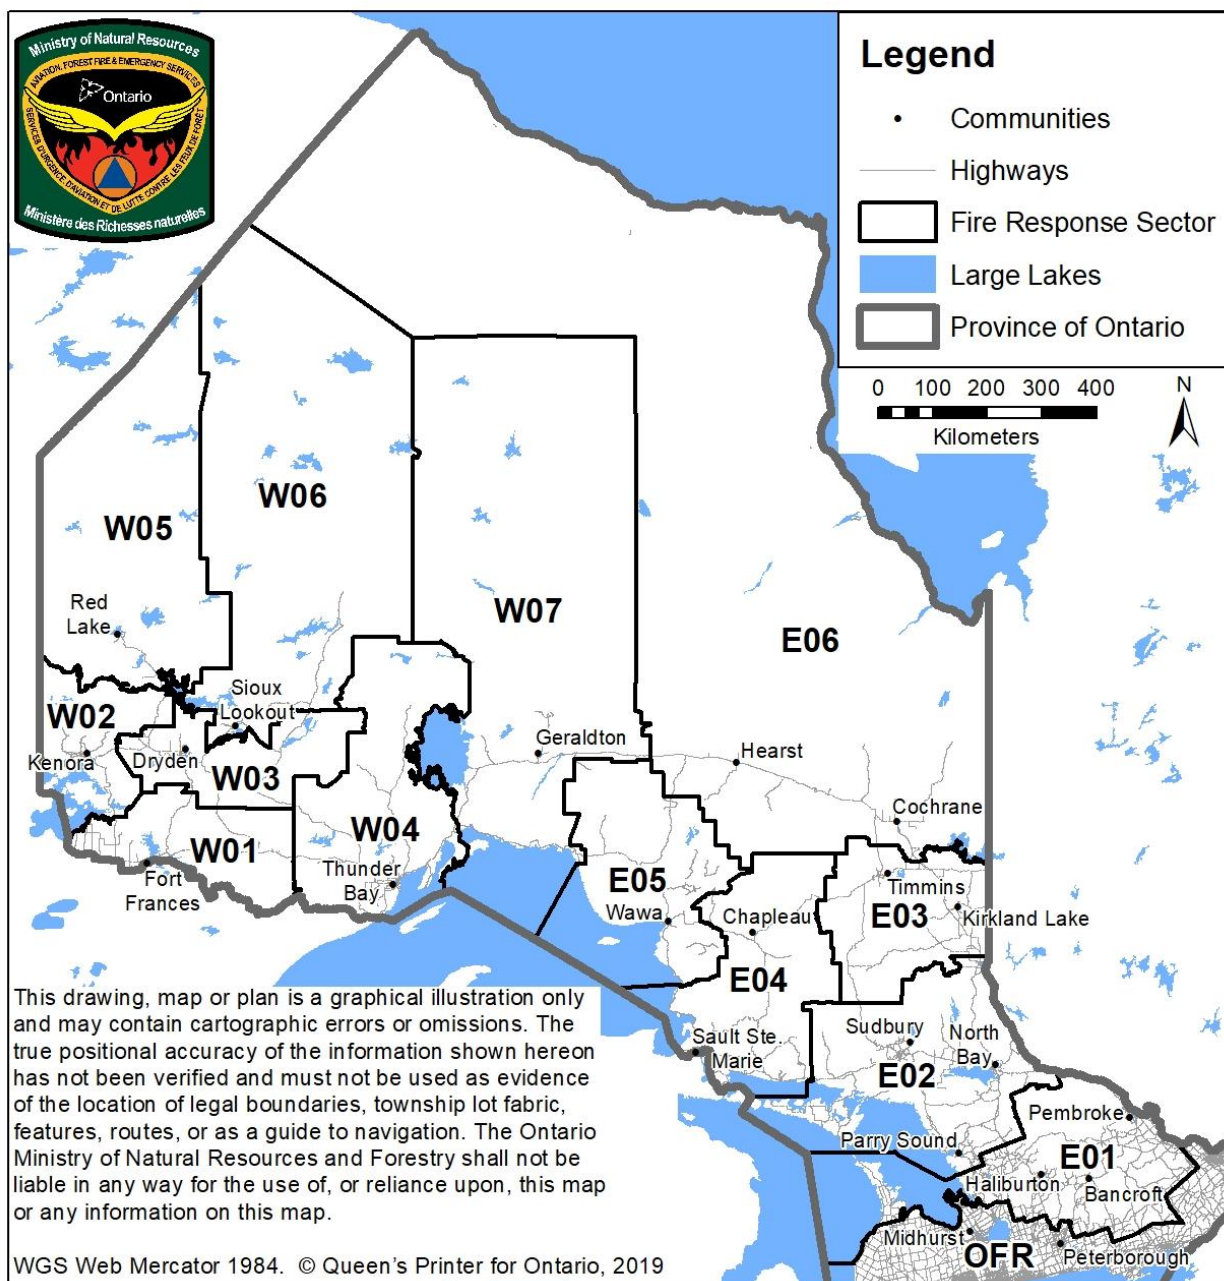

Sector 02: A mix of sun and cloud to mainly cloudy with a chance of showers(trace-2mm) this afternoon and evening. Winds southerly 10-20km/h, some gusts over 30km/h. RH's of 50-60%+. High 24°C. Low 14°C.

Sector 03: Sunny this morning. Becoming cloudy with a chance of showers or a risk of thunderstorms this afternoon and evening. Rainfall amounts of trace to 5mm are expected. Winds southerly 10-20km/h, some gusts over 30km/h. RH's of 35-45%. High 27°C. Low 14°C.

Sector 04: Fog patches dissipating this morning. Cloudy with a chance of showers or drizzle (trace-5mm). Winds southerly, then shift to southeasterly near Lake Superior at 10-20km/h, some gusts over 30km/h. RH will remain above 60%. High 23°C in the eastern areas and near 20°C in the west. Low 12°C.

Sector 05: Fog patches this morning near Lake Superior. Mainly cloudy with a chance of showers (trace-2mm) this afternoon and evening. Winds southerly at 10-20km/h, some gusts over 30km/h. RH 45% to 55% or more. High 25°C in the eastern areas and near 20°C in the west. Low 11°C.

Sector 06: Sunny with a few clouds this morning. Becoming cloudy with a chance of showers or a risk of thunderstorms this afternoon and evening. Rainfall amounts of trace to 5mm are expected. Winds south-southwesterly at 10-20km/h, gusting to 30-40km/h. RH's of 35-45%. High 28°C. Low 13°C.
